

STUDIO: How to embed a video in Studio on a Page

1. Either make a new Page and edit it, or edit an existing Page.
2. Click on the appropriate insertion point within the Page where the video should appear.
3. Click the External Tools icon
4. Select Studio from the drop down list

5. Find your video and click on it.
(When you hover on it the "Select" link appears)

OPTIONS:

- Turn off the ability for students to add comments to timeline
 - There may also be an option toggle to allow the video to be downloaded.
6. Click the blue Embed button
 - Page should flash yellow, indicating content has been added.
 7. Save, or Save & Publish, the Page.
