

*Econ 337 Agricultural Marketing, Spring 2020*

Do the following to Enroll in the Livestock Price and Market Risk Management Course:

- 1) Go to <https://moodle.extension.iastate.edu/>
- 2) Select the Agriculture and Natural Resources link under Courses.
- 3) Select the Livestock Price and Market Risk Management link.
- 4) Select the Log in with ISU Net-ID link.
- 5) Enter your ISU Net-ID and password.
- 6) Once enrolled you can proceed through the course.

The focus of the course is on the basic concepts and definitions related to price risk management and to introduce some of the different risk management strategies that are commonly used and discuss their relative strengths and weaknesses. The course covers an overview of price risk management tools including forward contracts, futures, options, and livestock insurance for both beef and swine producers.
